“Little Investment – Guaranteed big return”

New, unique and exclusive product for small investors.

The pack consists of 3 apartments of 1 bedroom + 1 apartment of 2 bedrooms for the value of 300.000 €. with a GUARANTEED PROFITABILITY, through rental, of 5% per year and for a period of 5 years.

Also, we have made an ECONOMIC VIABILITY PLAN for 5 years rentals, in the pessimistic scenario, where we note that in 5 years we can expect to have a profitability of half of the total investment. This is an expected scenario that is not guaranteed, but some investors could be interested in this way (we have this economic viability plan at your disposal). In this pack we included 5 different types of plans: one not guaranteed and four plans GUARANTEED for 5 years (Note that the last one plan THE TOTAL RETURN FOR 5 YEARS IS PAID IN ADVANCE day 0)

We believe it is a very interesting product with NO COMPETITION in this area. Ask for more information.
